Additional Notes :

Service Facility Functions
Staffing Arrangements
Stabling Categories
Contract Template

Principal functions only listed. For further information please contact DB Cargo.
 "Self-service" (PIC and groundstaff) is permitted at many Service Facilities. Where not permitted, usually for a variety of safety reasons, use of DB Cargo staff must be ordered and agreed in advance.
 Categorisation depends on the stabling capability for each Service Facility, and is variable over time. See the DB Cargo Stabling Policy document for further information.
 Two basic types of access contract will be used. The "FAC" is a multi-site document for service facilities without Light Maintenance capability. The "DAA" is a single-site document for sites with LM capability.
 NB: Cross-Channel services using Dollands Moor are dealt with under different arrangements. Please contact DB Cargo for details.
